Brewmonster, project Bar, Dark element Brewing

Subject: Ref. No: 24/0919/COU Brewmonster, project Bar, Dark element Brewing

New variation applied for 4th April 2026

The reasons for not wanting this to proceed are still as below

With reference to this application to open a roof terrace on these premises.

We have lived here for 20+ years, enjoying the peace and quiet in the summer evenings spent in our back garden, having BBQ's and enjoying family time.

Since the opening of Brewmonster, The Project Bar, Dark Element Brewing, choose a name, the owner keeps liquidating companies.

Our garden during the summer has now become a no go area for the last few of years.

While they illegally opened their Beer garden, including normal day to day customers, smoking outside. Along with ASB including fighting, young children running along Llon Y Twyn at 11.00pm, that I have reported to licensing, @CCBC along with the police, that have been ignored in previous licensing applications.

We have found that the noise levels were so horrendous, we couldn't sit in our garden.

The fact they want to now open an upstairs garden terrace, that would overlook, not just our garden, but many of our neighbours gardens, would be totally unacceptable, along with the associated noise levels, that would not be reduced by the acoustic membrane they suggest using.

I have confirmed with a number of manufacturers, unless they put a roof/lid on the

areas that noise reduction they suggest, is a complete waste of time.

They have already started building on the roof area, some weeks ago.!

We would like to totally appose this application, on the grounds that it would make our personal family space being invaded, and noise levels that would disturb our daily life.

Kind regards
