Dear Sir/Madam

RE: Application Vary\115539

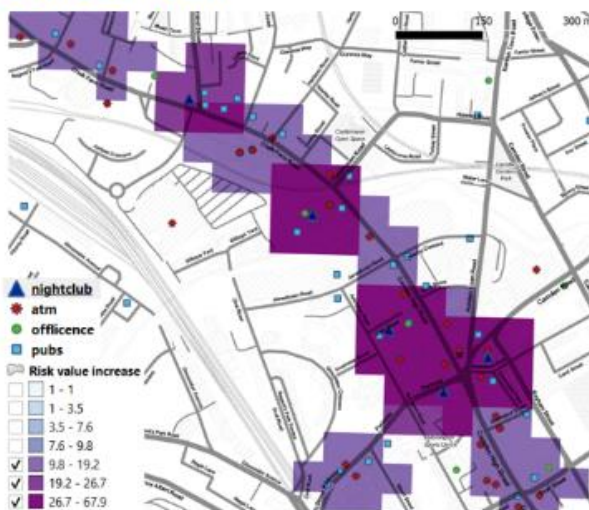

The Electric Ballroom 184 Camden Highstreet NW1 8QP

The below map is from another intelligence report, more specifically for sexual violence in the night time economy.

Close proximity to clubs and off licences, and the density of bars and ATMs increase the risk and prevalence of offences in this location. The accumulation of these venues together can increase the risk of an offence by up to 68x.

This intelligence report has show that Camden is one of the most high risk areas in the entire of London for this offence to occur

Camden Town

- Being close to these venues increases risk by:
 - Nightclubs 3.5x
 - Off Licence 2.7x
- Where there is a high concentration of these venues increases risk by:
 - ATM 2.7x
 - Pubs/Bars 2.5x
- The accumulation of multiple venues in close proximity increases the risk by up to 68x in the purple cells shown
- Chalk Farm Road / Camden High Street route is approx. 1100m in length. The route between the highest risk cells is 700m (7-10 minute walk).

The darker purple areas show the riskiest “zones” within the CIZ, and again as you can see The Electric Ballroom sits within one of these zones.

The victims of sexual violence are often targeted due to their levels of intoxication through drink and/or drugs, age and whether or not they are alone.

PC Dominic Hallam 1908 CN – Camden Licensing Team
