Signed:

Jess McGregor
Executive Director of Adults and Health

Date: 2nd March 2026

1. Purpose of Report

- 1.1. This report sets out the provisional work programme of the Health and Wellbeing Board. This allows Board members to plan for upcoming meetings and to consider additional items for inclusion where appropriate. Context for the work of the Board is also provided.

2. Work Programme Context

- 2.1. Camden's Health & Wellbeing Strategy was approved by the Health and Wellbeing Board on 16th March 2022. This is an eight-year strategy (2022-30) which is required by law and guides the provision of local healthcare services to meet the specific needs of our population. The strategy recognises the complexity of health and wellbeing challenges in Camden and the need to maintain efforts over the long-term to realise progress. It sets a long-term vision for helping Camden residents to start well, live well and age well, and identifies short-term priority areas where the local partnership can shift the dial on the social determinants of health.
- 2.2. The Camden Health and Wellbeing Board is responsible for the implementation of the Health and Wellbeing Strategy. It is a partnership forum of local leaders that provides the strategic leadership and democratic accountability for Camden's health and care system. It holds partners to account on the commitments of the strategy, driving collaboration and strengthening relationships between all who contribute to the health and wellbeing of Camden residents. Bringing together the council, NHS and voluntary and community sector, it aims to tackle inequalities, support the integration of health and care services, and ultimately improve the health of local people.
- 2.3. Currently, three of the four annual Board meetings are structured around one of the Board's three short-term priorities for action. These priorities are identified in the joint Health and Wellbeing Strategy and are subject to change based on changes in local need. The strategy's implementation principles of citizen voice, evidence and insight, co-challenge, and communication shape the presentations and discussions on these priorities, as well as shaping the broader work of the partnership.

Health and Wellbeing Board – Provisional Work Programme 2026/27
