

Health in Hackney Scrutiny Commission 9 July 2026 Quality Account responses FOR NOTING	Item No 8
--	---------------------

OUTLINE

In May-June each year the Commission is asked to submit a response to the draft Quality Account which local NHS Trusts must submit to NHS England covering the previous financial year. These reports follow a nationally mandated template and have to be returned in June. Because of this timing these usually have to be completed by Chair's Action.

This year we replied to requests for comments on their Quality Accounts from:

Homerton Healthcare
St Joseph's Hospice

Attached please find copies of the letters which the Chair sent on behalf of the Commission. These are for Noting only.

At the previous meeting we did have an item on Homerton Healthcare's QA report and the Chief Nurse attended to answer questions. That was reflected in the letter which was sent the following day.

We did not do a QA discussion with St Joseph's this year (we have done this in the past) but they will be inviting Members to the launch of their new 5 year strategy in September where issues can be discussed with them.

ACTION

The Commission is requested to note the information.
